

### **New Webinar**

*"System Safety: Getting More for Less Money"*

Check our web site for details.

### **Feedback**

Hey everyone! Just a reminder!

We would appreciate hearing from you!

Please send us your questions, feedback, announcements, articles, lessons learned, etc. so that we can share them with the other readers.

Special Note: We continue to be grateful to Bill Harrison of Sikorsky Aircraft for his feedback. Thank you Bill!

### **Software Safety Program Plans?** **Software Safety Cases?**

In terms of the former, we mean a Plan separate from the SSPP. In terms of the latter, we mean safety cases based on claims, arguments and evidence.

It has been our experience that the provision of these two documents is rare in the U.S. and Canada.

We would like to hear from you if your organization produces one or both of these.

We will publish the results in our next newsletter, respecting your privacy and that of your organization.

Newsletter readership exceeds 1000 so the sample size should be adequate for the purpose of this survey.

### **Archives**

Our newsletters date back to June 2008. Past issues are available upon request.

### **Pending Course**

This month:

- System Safety (5 Day)
  - Williamsburg, VA
  - April 19-23

Visit Busch Gardens while you are here. It is now open Fridays and weekends.
