

Newsletter - August 2014

International System Safety Training Symposium

Unfortunately attendance, at this annual conference of the International System Safety Society, was low.

International System Safety Society

HCRQ renewed its corporate membership.

Our hope is that more safety engineers will take an interest and apply for individual membership.

Air Traffic Control Assn. July Bulletin

Available on our home page.

Look for us on page 9.

Safety Audits

We have been seeing an increase in requests for safety audits for litigious reasons.

The majority of these are in the rail and medical device sectors.
