

## Happy New Year

We extend to you our best wishes for this new year. May this year bring you happiness, good health, peace, hope, and success.

## Course Updates

If you thought our courses were great last year, wait until you see them now!

We have enhanced our already exemplary courses by introducing new content. **DON'T MISS THIS OPPORTUNITY!**

We have posted the course outlines for the following on our web site:

- 3-day software safety
- 3-day system safety
- 3-day aviation system safety
- 5-day system safety

## Recent Course Commendations

"I will HIGHLY recommend this to others." - Naval Surface Warfare Center attendee

"You should make a presentation at International System Safety Conference."

"I attended another software safety course recently. Yours is much better."

## Aviation System Safety Course

This 3-day course is scheduled for January 19-21.

## Fault Tree Analysis Course

This 2-day course is scheduled for February 2-3.

## 5-Day System Safety Course

This immensely successful course is scheduled for February 8-12.

## Software Process ?

Remember the question we posted in the November newsletter?

Kudos to Trace Baker for submitting the correct answer.

## Safety Standard ?

It's question time again !

If one follows SAE ARP4761, what additional system safety tasks are required ?

E-mail us and we will provide you with the answer.
