Visit Us At Our Booth

Just a Reminder

We know you have heard this before, we encourage you to send us announcements, articles, lessons learned, etc. so that we can share them with the other readers.

New Webinar Estimating Probabilities of Software Failures

Certainly a controversial subject!
Yet this continues to be requested.
www.hcrq.com/WebinarEPSF.html

Pending NAVAIR Software Safety Course

NAVAIR has scheduled a course with us for the end of April.

We look forward to teaching and interacting with them again.

Australian System Safety Conference

May 28-30, 2014
Melbourne
<http://www.asssc.org/conf2014/>

General Dynamics & Royal New Zealand Air Force

We were pleased to see General Dynamics at our last Software Safety Course and are pleased to announce that the RNZAF will be attending our next course.

A Tick In The Box

Regrettably, we often see completely inadequate attention to system safety where the only goal is to obtain a "tick in the box". In these cases, there are either no formal safety analyses or trivial attempts, with Levels Of Rigor being set arbitrarily.
