

## Newsletter - March 2015

### Increased Interest

We are seeing increased interest from the Government in two of our offerings:

Webinar - System Safety: If You Were Us, What Would You Look For?

Fault Tree Analysis Acceptance/Rejection Criteria\*

### Hands-On Fault Tree Analysis Course

Scheduled for May 18-19  
Williamsburg, VA

[www.hcrq.com/  
fta\\_2day\\_course.html](http://www.hcrq.com/fta_2day_course.html)

Includes \*

### New Web Site Pending Very Soon

We have been busy for quite some time redesigning our web site. This has proven to be a laborious exercise due to the significant content of the current web site.

Please stand by. You are in for a pleasant surprise.

### Aviation System Safety Course

Scheduled for April 20-22

### Pending Courses

Army, Navy, Defense Contractors

### Pending Lecture to IEEE Product Safety Engineering Society (PSES)

Topic: Software Caused Accidents  
Date: TBD  
Location: Long Island, NY  
Presenter: Hunter Austegard

### FRA 49 CFR Part 271 Risk Reduction Program; Proposed Rule

This is now out for comment. Comments must be received by April 28.
