

Newsletter - November 2018 Update

Thank You

In my role as CIND here at HCRQ, it has been a pleasure interacting with many of you verbally, by email, using LinkedIn and, when opportunity presents itself, in person.

Best regards,
China

Client Representation

We are seeing an increase in interest in our either representing clients at meetings with their clients OR being in attendance with them for added support.

System Safety & Software Safety Consulting Services

Take a look at all 58 of them:
www.hcrq.com/full-list-of-consulting-services.html

Proposal Assistance

HCRQ offers outstanding expertise in proposal writing, technical writing, and vetting.

In addition, we have been significant contributors on:

- pink teams,
- red teams, and
- tiger teams.

Speaking of SILs and DALs

Does SIL4 = DAL A?

Speaking of Fault Trees

A fault tree is composed mostly of faults. True or false?
