### MIL-STD-882E System Safety Course

Dec. 6-8, 2016  
<http://www.hcrq.com/mil-std-882e-system-safety-course.html>

Here we go again !

### Your Feedback

- Your knowledge in system safety, software safety and multiple sector applications is outstanding.
- Two days of your training and I hit the ground running with fault tree analysis.

### O&SHA Webinar

- In-depth.
- Over 70 slides.
- Overlaps with OSHA, HFE, human error probabilities.
- Attended by Army, Navy, Air Force to name just a few.

### COMAC

HCRQ was honored to have hosted representatives from China's COMAC (Commercial Aircraft Corporation) when they travelled to see us this month.

### Webinar - System Safety: If You Were Us, What Would You Watch Out For

If you are on the receiving end, there are many things you should watch out for. To name just a few:

Some of these things are caused by suppliers' poorly skilled safety engineers.

Some are caused by inadequate depth of coverage.

Some are caused by the analyses being out of sync with the design.

Some can be intentional.
