HCRQ, Inc.

"The Key To A Safer World"

Newsletter - September 2011

Webinar: SARs

Our latest webinar covers Safety Assessment Reports.

Coverage is much better than MIL-STD-882C task 301, the DOD DID, and the FAA DID put together.

ECP DID

Our ECP DID is now available.

Of particular interest is the verbiage associated with proposed changes which either impact safety or not.

Your Feedback

- Thanks for yet another newsletter.
- I am a system safety engineer but am usually not brought on board the project team until near the end of the development cycle.
- In your July Update 2010 issue you mentioned problems with ED-153 "Guidelines for ANS Software Safety Assurance". We now see what you mean. For instance, the technique used to determine SWALs is weird to say the least.
- As a practicing safety consultant I am interested in keeping up to date with the latest developments within the safety community.

Your Feedback (cont'd)

Your newsletter has proven to be valuable in this regard.

- Thanks for the heads up regarding 4754A.

Webinar: System Safety - Getting More, Spending Less

In order to make room in our schedule for new webinars, this one will no longer be offered after this year.

All is not lost; however, its content is included in our system safety courses.

ATCA* 56th Annual Conference and Exposition

October 2 - 5
National Harbor, MD
http://www.atca.org/56Annual

See you there!

*Air Traffic Control Association

RSAC PTC WG Meeting

October 21
8:30AM—4:30PM
Washington Marriott

See you there!

Aviation
Airborne Software Safety

You may be interested in knowing that this year we have seen more interest in airborne software safety.

And, of course, this implies more than assigning DALs to software functions and complying with DO-178B.

Locomotive Safety Standards NPRM ?

This NPRM was released on January 12. Comments were due in March 14. FRA is deciding on what step(s) to take next.

MIL-STD-882E

We just heard that MIL-STD-882D Change 1 evolved into MIL-STD-882E (draft) dated July 14, 2011.

The finalized version may appear in 3 months or so.

Full Railroad Safety Advisory Committee (RSAC) Meeting

HCRQ will be attending the meeting on December 8 representing CGI.

See you there!
